Union Pacific Corporation

Dear Customer:

This letter is an update on the status of various disposal fees within the state of Utah. Upcoming changes to the state's disposal fee structure that affect USPCI customers are summarized below.

**Industrial Waste/Municipal Solid Waste**

Under Utah law enacted in 1992, industrial solid waste disposal fees will increase from \$1.50 per ton to \$2 per ton effective July 1, 1993. Disposal fees for municipal solid waste will remain at \$.50 per ton.

During its 1993 legislative session, the state of Utah enacted legislation which amended the fees charged on the treatment and disposal of hazardous (RCRA) and PCB (TSCA) wastes. In accordance with USPCI's disposal agreement, these fees are paid by the waste generator.

**RCRA Waste**

Currently, USPCI passes on a \$10-per-ton fee to Utah generators and a \$35-per-ton fee to out-of-state generators for wastes disposed of at the Grassy Mountain Facility. Effective May 3, 1993, a uniform disposal fee of \$28 per ton will be assessed on both Utah and out-of-state generators of RCRA hazardous waste. These changes will be reflected in USPCI's invoices beginning May 3, 1993.

**TSCA Waste**

Effective July 1, 1993, USPCI will pass on a \$4.75-per-ton fee for PCB waste disposal to both Utah and out-of-state generators, an increase from the current \$1.50-per-ton fee. This change will be reflected in USPCI's invoices beginning July 1, 1993.

Please contact your USPCI sales representative for additional information.

Sincerely,

Daniel W. Belger, Jr  
Vice President Sales
